

RUPAM MONDAL

2D ANIMATOR

Oct 2022 – Dec 2023

About Me

I am a 2D animator specializing in creating cartoon stories from scratch. My skills cover the entire production process, including story development, character design, character rigging, background design, cut-out animation, and final video editing. I have experience creating children's stories, horror stories, moral stories, educational content, and other animated productions.

I enjoy bringing ideas to life through storytelling and animation, creating engaging characters and visually appealing scenes. Alongside animation, I also explore basic HTML, CSS, and AI-assisted website development. I built this portfolio website myself to showcase both my animation work and web development skills.

Since August 2024, I have been working as a freelance animator for clients worldwide, delivering high-quality creative work and maintaining strong client satisfaction through platforms like Fiverr.

Skill

Adobe Animate CC	<div style="width: 100%; height: 10px; background-color: white;"></div>
Adobe Premiere Pro	<div style="width: 100%; height: 10px; background-color: white;"></div>
Adobe Illustrator	<div style="width: 80%; height: 10px; background-color: white;"></div>
Adobe photoshop	<div style="width: 50%; height: 10px; background-color: white;"></div>

Experience

Oct 2022 – Aug 2024

2D Animator – ArtisticSpace

- Worked as a 2D Animator at ArtisticSpace, creating animated content for multiple YouTube channels. Contributed to horror story animations for @BroccoliAnimations and produced Hindi cartoon moral story videos for @SonalikaeGurukul. Responsible for animation production, scene creation, character animation, and visual storytelling.

Aug 2025 – Present

Freelance 2D Animator & Designer

- Working independently with clients worldwide as a Freelance 2D Animator and Designer. Created animated promotional videos for cryptocurrency and meme coin projects, horror story animations, and various cartoon-based content through Fiverr and Upwork. Expanded my skill set into website development and AI-assisted creative workflows while continuing to deliver animation projects for international clients.
